

# Civil Twilight, Anybody Out There

In the cold of the night, the fire burns bright, you long for the unseen  
On the edge of the sea, your thoughts run deep, you long for a place you've never been  
Is anybody there, is anybody there, you cry to the full moon  
As your thoughts run wild like the thoughts of a child, you wonder if you'll be there soon  
I say slow me down, slow me down  
I want to hear the sound, slow me down  
Is anybody out there  
Is anybody out there  
(repeat)  
Anybody, anybody  
Here I stand, letter in my hand, the letter that you sent to me  
But as I turn each page like the turning of a wave, I feel you turning me  
Slow me down, slow me down  
I want to hear the sound, slow me down  
Is anybody out there  
Is anybody out there  
(repeat)  
Anybody, anybody  
I don't know anything no more  
I don't know anything no more  
I don't know anything  
Is anybody out there  
Is anybody out there  
(repeat)  
Anybody, anybody
