

CJ Stone, Stay 4ever Young (feat. Jonny Rose)

We fall asleep in the morning
or waking up at night
I'll find a place where we can go,
and learn to stop the time.

We're off to ride, the distant waves
our parents tell us we're crazy
we're running blind for better change
we feel so amazing.

Follow at night through the morning sign
each day, forever young
and turning your life it's just begun
just stay forever young.

So stay forever young
So stay forever young

We never check the warnings,
we're taking what we can

I'll watch the world get older baby
but stay who I am.

We're off to ride, the distant waves
our parents tell us we're crazy
we're running blind for better change
we feel so amazing.

Follow at night through the morning sign
each day, for ever young
and turning your life it's just begun
just stay for ever young.

So stay forever young
So stay forever young

Follow at night through the morning sign
So stay forever young.
And turning your life it's just begun
So stay forever young.
