

Cky, Tripled Manic State

Enhancement of emotions by a primitive regime
Experiments, procedures to exploit my silent screaming
Medical advances designed to ease the human mind
A glitch in operations multiplied my anger three more times

Tripled Manic State
Resonating through me
Doctors horrified, all still unsatisfied
Poison as a cure, the failure to control me
Tripled Manic State
Outrageously created for me

Skin is now a prison and I'm never to be free
Immobilized in body and I'm overflowing energy
The agony is understated, no one understands
My tripled manic state is multiplying all my violent plans

Tripled Manic State
Resonating through me
Doctors horrified, all still unsatisfied
Poison as a cure, the failure to control me
Tripled Manic State
Outrageously created for me

The agony is understated, no one understands
My tripled manic state is multiplying all my violent plans
