

# Claire Toomey, World Without Windows

Well it seems I've lost my way  
I'm Fallen  
When I wake up  
It's your name I'm calling

I'm stuck in a world without windows  
And I can't see  
I'm stuck in a world without windows  
And I can't see  
What about me  
What about them, what about us  
What about me  
What about them, what about us  
What about, what about me

Well it seems  
Another day is dawning  
And it seems  
The sun is never shining

I'm stuck in a world without windows  
And I can't see  
I'm stuck in a world without windows  
And I can't see  
What about me  
What about them, what about us  
What about me  
What about them, what about us  
What about me

It's 4 past midnight  
The lights are out  
There's no one here to hear me shout  
I close my eyes, I see you there

What about, what about me

What about them, what about us  
What about me  
What about them, what about us  
What about, what about...

I'm stuck in a world without windows  
And I can't see  
I'm stuck in a world without windows  
And I can't see  
What about, oh, what about me...
