

# Clan Of Xymox, No Words

Out in the night  
It could be fun  
It could be fun  
It could be fun  
No words to explain  
No words in my mouth  
No words in my mind  
But the gesture said it all  
And the words refined it all

I saw how you looked at me  
I saw how you danced with her  
I saw how you looked at me  
I saw how you danced with her  
I saw it before  
I saw it before  
Right now, i guess you move

I saw it before  
I saw it before that time  
But the gesture said it all  
And the words refined it all

I saw how you looked at me  
I saw how you danced with her  
I saw how you looked at me  
I saw how you danced with her  
I saw it before  
I saw it before  
Right now, i guess you move

I saw it before
