

# Clan Of Xymox, Out Of The Rain

I've got a crush on you  
You turn me on  
It's hitting home again, what I left behind  
I don't want to sleep alone  
I don't want to go home  
I don't want to walk the streets  
I want to satisfy your needs  
Cos, that's what life's about  
Cos, that's what love's about

She says "no, no, no, no, no, never again"  
She says "no, no, no, no, no never again"

You've got nothing to loose  
So just hear me out again  
I don't understand why people say I just don't give a damn  
I don't want to make the same mistake  
I don't want to waste another day  
I don't want to play another game  
I want to make it up this way  
Cos, that's what life's about  
Cos, that's what love's about

She says "no, no, no, no, no, never again"  
I say "no, no, no, no, no never again"

Take me out of the rain  
Take me out of the rain

Some say, I stepped out of line  
Some say, just leave it all behind  
It's never too late, to turn it around  
It's never too late, to turn it around  
All I want is you tonight  
All I want is you tonight, to

Take me out of the rain  
Take me out of the rain

How can I change your mind  
How can I change your mind to

Take me out of the rain  
Take me out of the rain

Rain, rain, rain
