Clannad, Stepping Stone

I can quote a lot of lines That's pertinent to you and me Life and all it's many choices Are so funny and so mean Deep thoughts in one's convictions Can be someone's discontent Just what seems isn't If must needs the devil drives Soul searcher what are you looking for? Soul giver what will you settle for? Back to the very beginning Back to the future I don't mind As long as philosophical people Keep their minds alive If we use the back pages Of a bible of ages If we could write it now Well if must needs the devil drives Soul searcher what are you looking for? Soul giver what will you settle for? Soul searcher what are you looking for? Soul giver what will you settle for? Alone searcher is owed a lot of love Soul searcher what will you settle for?
