

# Clap Your Hands Say Yeah, Cigarettes

cigarettes, choking pets  
how you gonna pay the rent, now  
that all of your moneys gone  
well i know you, you know me  
we met at the cemetery  
digging ditches and turning up stones

now you're alive but seem deceased  
i wish i knew the cure for the disease  
which causes you to be so cold

a wet dream, a magazine  
?? season make believes my..  
headless chickens going to get stoned  
and paris, it is so full of rage  
under cover, centerstage  
well .....

wowohwoowhwo

now you're alive but seem deceased  
i wish i knew the cure for the disease  
which causes you to be so cold

radiant allowance spent  
really i had only meant that  
we should never get so sentimental  
a broken string, a wedding ring  
behind the fence i have no sense  
for what the neighbors think of self control

now you're alive but seem deceased  
i wish i knew the cure for the disease  
which causes you to be so cold
