

Classic Case, Revival

utilize formaldehyde
the motive is defective
cynical beyond control
the mechanism stalls

so why are you waiting?
i will die without your grace
so baby, enslave me
i'm too dimensional

calling your name
screaming in vain
i look around but you're not there anymore
calling your name
screaming in vain
i look around but you're not there

so go on and write me off
you've been stringing me along
so baby, enslave me
i promise i'll show you i care

calling your name
screaming in vain
i look around but you're not there anymore
calling your name
screaming in vain
i look around but you're not there
now i'm stranded in despair

one thing is leading to another
i'm giving up and going underground
until the controversy passes

calling your name
screaming in vain
i look around but you're not there anymore
calling your name
screaming in vain
i look around but you're not there
now i'm stranded in despair
