

# Classix Nouveaux, Never Never Comes

Imagery  
We never come to see is blind  
Far outside  
The covers we hide behind  
Daylight  
Turning into deep night  
Insight  
Forever you know  
Never never comes  
Never never comes  
Never never comes  
Never never comes  
Somewhere far  
We used to be we are and proud  
Visions we can  
Never come to see are loud  
Daylight  
Turning into deep night  
Insight  
Forever you know  
Never never comes  
Never never comes  
Never never comes  
Never never comes  
Never never comes  
Never never comes  
Never never comes  
Never never comes
