Claud, A Good Thing

You're at my house but I feel gone
you piss me off you turn me on
I'd push you off but I'm on top
can't decide what side I'm on

Are you thinking what I'm thinking?
are you thinking what I'm thinking?
Are you thinking what I'm thinking?
on the count of three

What if we just leave a good thing alone
don't try and fix it if it isn't broke
Looking for the answers to the questions that we're asking but we'll never know
We're looking for the answers to the questions that we're asking but we'll never know

In the kitchen mixing drinks
I'd quit stirring but I'd fall asleep
And can I sip with my coat on?
it doesn't mean I'm gonna run

Are you drinking what I'm drinking?
are you drinking what I'm drinking?
Are you drinking what I'm drinking?
spit it out on three

What if we just leave a good thing alone
don't try and fix it if it isn't broke
We're looking for the answers to the questions that we're asking but we'll never know
What if we just leave a good thing alone
don't try and fix it if it isn't broke
We're looking for the answers to the questions that we're asking but we'll never know

Don't look too close
(Did I drive this into the ground?)
Don't look too close
(Did I kick you when you were down?)
Don't look too close
(Were we always hell bound?)
Don't look too close
(Did I? Did I?)

What if we just leave a good thing alone
don't try and fix it if it isn't broke
We're looking for the answers to the questions that we're asking but we'll never know
We're looking for the answers to the questions that we're asking but we'll never know
