Claude Kelly, I Believe In Us

We going on and on to history.
People falling in and out of love.
Everyday in every country, people breaking up.
But you and I, let's be the acception.
We've been through ups and downs, hills and vallies.
We've passed the honeymoon stage.
Never realized how much it would take to keep this alive.
But I want to stay together, baby.
So if there is a mountain, I'm bound to climb it.
And no matter how deep, you know I would dive it.
To keep us from being another statistic.
Promise I ain't never quit it, I'm in it to win it.
[Chorus:]
How do you go through it all cause baby deep down, I believe in us.
Even when my back's up against the wall, I ain't gon' bail down when the times get rough.
Anything you need girl, you know I would.
[?] if that's what it took.
So ain't no way I'm giving up.
I believe in us, I believe in us, I believe in us.
Roll up my sleeves, get dirty, I ain't scared of a little hard work.
No pain, no gain, no matter how it hurts.
Stay up all night, give you my undivided attention.
Any mountain you know I would climb it.
And no matter how deep, girl you know I would dive it.
To keep us from being another statistic.
Promise I ain't never quit it, I'm in it to win it.
[Chorus:]
How do you go through it all cause baby deep down, I believe in us.
Even when my back's up against the wall, I ain't gon' bail down when the times get rough.
Anything you need girl, you know I would.
[?] if that's what it took.
So ain't no way I'm giving up.
I believe in us, I believe in us, I believe in us.
There ain't no limit to where we can go.
Our destiny is right here in our control.
Can't no one tell me it's impossible.
As long as we got us, I'm heading down the road.
[Chorus: x2]
How do you go through it all cause baby deep down, I believe in us.
Even when my back's up against the wall, I ain't gon' bail down when the times get rough.
Anything you need girl, you know I would.
[?] if that's what it took.
So ain't no way I'm giving up.
I believe in us, I believe in us, I believe in us
