

Claw Boys Claw, Use It

Learning to amuse so if I can be a feel
Cause your life is gone, my sillish pot, you circle low don't do me wrong
Splinking up my crazy less then already know recall
But our mind is clear and know the game, that's a half lot crazy, half not going on

Why don't you use it, why don't you use it
Don't abuse it, why don't you use your thing on me

Singing a lot come round the corner, fly away or steady hand
Cause a lie is here and all is singing, see a woman breathing by

Why don't you use it, why don't you use it
Don't abuse it, why don't you use your thing on me
Why don't you use it, why don't you use it
Don't abuse it, why don't you use your thing on me
A fire roses in the morning, yeah
