

Clawfinger, Four Letter Word

I thought I knew you, it only goes to show that I was wrong, so wrong
I see right through you,
and everything we used to have is gone, it's all gone
You said you loved me, but did you mean a word of what you said,
when you said you're thinking of me,
I'm sure that someone else was in your bed, getting head

I'll tell you what, love is just a four letter word
like it or not, love is just a four letter word

You say it's over and treat me like you don't know who I am, who I am
I hope you know girl, that you've turned me into a broken man, that's
all I am and then you tell me, tell me that you've found somebody new,
well good for you
but do you really, think I care about the things you do,
fuck both of you

I'll tell you what, love is just a four letter word
like it or not, love is just a four letter word

So now you've left me, I bet that you could hardly even wait
I used to love you, now you're just the girl I love to hate
All I can say is, I wish I'd listened to my own advice
I learned the hard way, that you were cold as ice

so thanx alot, love is just a four letter word
like it or not, love is just a four letter word
