

Clay Walker, Heaven Leave The Light On

well i'm only human
yeah i'm just a man
it don't make no difference who i am
i've climbed some mountains
and i've tumbled down
i've been a king
i've been a clown

Chorus:

So heaven leave the light on
it's dark and i can't see
so heaven leave the light on
burn like a fire for me
and i won't have no problem askin please
heaven leave the light on for me

well i've heard of mansions
and streets paved in gold
yeah i know that's where i want to go
but how do you get there?
yes i've heard them say
that if you have to ask then you don't know your way

Chorus:

so heaven leave the light on
it's dark and i can't see
so heaven leave the light on
burn like a fire for me
and i won't have no problem askin please
heaven leave the light on for me

if i see the river
i'm not afraid to dive
because i know i'll find the other side

Chorus:

so heaven leave the light on
it's dark and i can't see
so heaven leave the light on
burn like a fire for me
and i won't have no problems askin please
heaven leave the light on

so heaven leave the light on
it's dark and i can't see
so heaven leave the light on
burn like a fire for me
and i won't have no problems askin please
heaven leave the light on for me!!!
