

Clay Walker, Watch This

(Anthony Smith/Aaron Barker/Ron Harbin)

If you've never felt what happens when two hearts

Fall together

Or never seen love written in the stars

And knew it was forever

If you don't believe that destiny

Can start with just one wish

Watch this

I'll show you love like you've dreamed of

I've got so much to give

Watch this

Don't be afraid, you'll be amazed

At all the ways that I can

Show you what you've missed

Just close your eyes

And watch this

A broken heart can't always live in fear

Afraid to fall

I can make those feelings disappear

In no time at all

If you wanna feel the world stand still

From the magic of one kiss

Watch this

I'll show you love like you've dreamed of

I've got so much to give

Watch this

Don't be afraid, you'll be amazed

At all the ways that I can

Show you what you've missed

Just close your eyes

And watch this
