

Clear Voyance, 9 Down, Forever To Go

Come on just do this why not take a chance with me,
you only seem to see me, when your under the consumption
or the influential case of five point O

so just take a drink, just another drink,
because I can't seem to...

Stay away from you,
I can't stay away from you,
well I know that we can't be together
but I really hope that this is better off.

miss the taste of your kiss,
the soothing texture of your lips,
so just take a drink, just one more drink

Come on just do this why not take a chance with me
