

Cledus T Judd, Waitin On Obama

was waitin to vote down at city hall
Watching gas go up and the stock market fall
When he asked me : you waitin' on Obama?
I said I guess, how 'bout you
And he said son ever since George W
I've been waitin' on Obama
When McCain picked her as his runnin' mate
I thought for sure that they'd be great
But she spent a hundred thousand just on clothing
And the last eight years have been so long
seems like everything's gone wrong
but as far as republicans go, she's sure a hottie
Have we lost our mind?
We'll know in time
Waitin' on Obama
He's got a brand new four year plan
He'll get 'em out of Afghanistan
Bring 'em on home
Waitin' on Obama
And if he lowers my taxes like he says he'll do
And half of what he says is true
Well it'll be worth it
Waitin' on Obama
Cause I've hardly been anywhere
With the price of gas this year
Sometimes I think they did it
cause they can do it
Billions spent on bailout plans while they stick it
to the working man
I guess by now they think we're used to it
Now I'm killin' time in the welfare line
Waitin' on Obama
I've saw where all the polls have showed
It's way past time for Bush to go and
that makes since cause I know folk's is ready
So stop here comes Obama time
and once he's in that house of White
I'll get myself some credit if they've got any
Don't waste our time
There's a real long line waitin' on Obama
We're just biding time
(Even Joe the Plumber's in line)
Waitin' on Obama
