

Cleveland Watkiss, Torch Of Freedom

Just turn the key open the door
Right here is what you're looking for
Been staring you between the eyes
I couldn't see cause I was blind
The more you get the more you want
Now is the season and the time

Refrain

You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
You hold the torch of freedom let it shine
Running with the torch of freedom let it shine

Shine like a mirror in the sun
Or like a child that's having fun
You hold the torch now let it shine
Shine from your feet up through your spine
Make no excuse, no alibis
Good things must come to you in time

Refrain

You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
You hold the torch of freedom let it shine

Here I come yeah, here I come again
Represent the king, who brought you truth and rights
From the beginning never had no sin
Teach me how to shine my light from deep within
Let the freedom bells ring
And let everybody sing
Make a joyful sound keep the people moving
Come a long way still a long way to climb
Hold the torch of freedom time to let it shine

My destiny is predestined and satisfaction's guaranteed
Not far away from the finish line
It will get hotter than July
But with this little light of mine
I'm really gonna let it shine

Refrain

You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
You hold the torch of freedom let it shine
Running with the torch of freedom let it shine
