

Cliff Richard, Everybody Knows

Everybody needs to cry some
Everybody can't be wise
Everybody needs some understanding
Understanding when you cry

Everybody knows
Love doesn't always begin like this
Everybody knows
Love doesn't always end with a kiss
See I've been in love and I know
And now you've been in love and you know

Anyone who's ever hurt you
Anyone who's ever tried
Will only love you then desert you
Won't believe you when you cry

Everybody knows
Love doesn't always begin like this
Everybody knows
Love doesn't always end with a kiss
See I've been in love and I know
And now you've been in love and you know

(Guitar Solo)

Everybody knows
Love doesn't always begin like this
Everybody knows
Love doesn't always end with a kiss
See I've been in love and I know
And now you've been in love and you know

See I've been in love and I know
And now you've been in love and you know

Everybody needs to cry some
Everybody can't be wise
Everybody needs some understanding
Understanding when you cry

Everybody knows
Love doesn't always end like this
