

# Cliff Richard, Never Let Go

I've had my chances, too many nights  
All these broken dreams, they're just drifting away  
But I'd do it all again, just to hear, hear you say

Chorus:

Never let never let you go  
I will never let never let you go  
I will never let never let you go

Everyone tells me I'm a fool to myself  
But I never listen to a word that they say  
'Cause I've heard it a million times before  
And I'd give everything away if you will say

Repeat Chorus

Never ever let  
Tell me that you'll never let you go  
Say you'll not leave me baby

Never let  
Never ever let you go  
I will never let  
Never let you go
