

Cliff Richard, Now You See Me, Now You Don't

You say you'd really like to know me
Why don't we meet and you will show me
Here's the note you hope I'll read it
Take your number if I need it
Someone said it's hard to find out
What it is I think about
I'm good at smiles and easy phrases
Don't look too close I don't like gazes

Now you see me, now you don't
Understand me then you won't
I'm in vision I'm on stage
I'm 17 I don't look my age

I share a word you know I mean it
You give a smile you know I've seen it
Across the rooms our eyes keep meeting
Music is my special greeting
Another night, another town
It's all so quick, it spins me round

Now you see me, now you don't
Understand me then you won't
I'm in vision I'm on stage
I'm 17 I don't look my age
