

# Clifford T. Ward, Heaven

Heaven isn't high up in the sky

Where the stars are sighing

And all is quiet

It's here on Earth

When I'm by your side

And your love is showing

It's all so quiet

And that's where heaven is.

Heaven isn't very far away

Where you cannot see

And you cannot say

It's right here with me

When I'm next to you

It's so clear to see

That your love is true

And that's where heaven is.

Heaven don't leave me

Heaven don't leave me.

## INSTRUMENTAL

Heaven isn't high up in the sky

Where the moon is pinin'

And all is quiet

It's here on Earth

When I'm by your side

And your love is growing

It's all so quiet

And that's where heaven is.
