

# Clint Black, You Don't Need Me Now

Holdin' on, safely to fall  
Like there's no tomorrow forsaking it all  
Bound and determined to share all of our days  
Loving and learning our special ways  
That I'm holdin' onto and you've been lettin' go  
And wherever you've gone to I'm so far below  
You're way over me I can't even see how  
Someday I'll need you the way you don't need me now

Movin' on, heart in a stall  
Like there's no tomorrow, no beating at all  
Bound and determined to forget all of our days  
Reliving and learning our special ways  
I'm still holdin' onto, maybe no lettin' go  
And wherever you've gone to I may never know  
The way you're over me I can't even see how  
Someday I'll need you the way you don't need me now

And you don't need me now  
Like you needed me then  
And I'm wondering how I'll be feeling when  
I'm way over you I can't even see how  
Someday I'll need you the way you don't need me now  
No way I'll need you the way you don't need me now...
