

Cliteater, Inbreed Seed

Lack of breeding kep you from developing yourself
Born out of your promiscuous sister
Whom went down on your father

[Chorus]
Imprefect being
Born out of sins
Propitiate your family at all time
By keeping it in the family
Keeping it in the family

Inbreed seed
Breeding f**king mongols
Inbreed seed
Living your retarded life
Inbreed seed
Your family spreads like cancer
Inbreed seed
You don't take no far an answer

[Repeat chorus]

Spilling your seed
In your mothers cunt
Who's actually your sister
Lay down on her
Moaning and groaning
Family love never felt so right
