

Clones Of Sam, How

All my wishes, all my demands
Are turning into sand
And slipping through my hands
All I need I need is you
If I knew I couldn't lose
I'd know just what to do

Love me your way
How can I win?
Love beat me again
How can I win If I never try?

And suddenly it's the end
And you're running off to him
dancing with your sins
but Don't you know who I am?
I'll make you understand
I'll make you make you make you make you

Love me your way
How can I win?
Love beat me again
How can I win If I never try?
