

Close To You, Baby Don't Go

In my dreams I know you're always by my side
Everywhere I go you linger in my mind
I've been waiting so long for a special guy
Then you came to lift me up and make me fly

Chorus

Baby don't go
I just want you here
Right by your side
I won't hide my tears
Baby don't go
Waited for so long
I want you so
Come and hold me strong
Gotta feeling that I can't resist to
>From the moment I laid my eyes on you
Honey tell me what you wanna do
'Cause my heart is getting lost inside of you
Hold me in your arms and whisper in my ear
Guess I've always known that you would say goodbye

(Say goodbye)

Time and time again
You love has made cry
(Made me cry)
I spent hours trying to get you on the phone
(On the phone)
Lying on my bed feeling so alone

Chorus

(Come on baby hold me strong)
Gotta feeling that I can't resist to
>From the moment I laid my eyes on you
Honey tell me what you wanna do
'Cause my heart is getting lost inside of you
Hold me in your arms and whisper in my ear
Keep my body warm, say the words I long to hear
Hold me in your arms like you'll never go away
I'm waiting for your touch just beggin' you to stay
Baby don't go baby don't go
