

# Closterkeller, Lullaby

Together we were holding hands  
Fighters in the graffiti land  
In darkness firing at the city walls  
Spray guns the weapon of our generation

And you sleep  
I speak to you  
There's something in the shadows  
I want, I want to tell you now  
But I don't know how

Chorus: I'm watching over you  
Chasing nightmares away  
My soul is so cool  
Thou I can't forget those days

I still recall the tear gas smell  
Remember the street fighting hell  
Filled with fear we all ran together  
And those behind us will haunt me forever

And you sleep  
I speak to you  
There's something in the shadows  
I want, I want to tell you now  
But I don't now how
