

# Closterkeller, The Symbol Shatterer

Drunk on the blood of gods  
Evil personified  
She is the Antichrist  
The Symbol Shatterer  
You're lying wide awake  
Remembering my face  
Pushing those thoughts away  
The Symbol Shatterer

The message has sunk in;  
Though I won't get your ear  
I'll get you in your dreams  
The Symbol Shatterer  
And kissing you goodbye  
I could see it in your eyes  
I realized that the symbols were shattered

The word will bring forth fruit  
The devils have lost more food

Suddenly there's a door,  
But it's locked up,  
The demons have the keys  
You've got to fight them on your own,  
It's your turn to break free  
And I'll follow my mission, my sword in hand,  
And I'll help them understand

A god without a shrine  
I'm fighting the good fight  
A tree that stands the storm  
The Symbol Shatterer  
I toss dogmas aside  
The sparks fly as I strike  
Another monument down  
The Symbol Shatterer

The word will bring forth fruit  
The devils have lost more food

Suddenly there's a door,  
But it's locked up,  
The demons have the keys  
You've got to fight them on your own,  
It's your turn to break free  
And I'll follow my mission, my sword in hand,  
And I'll help them understand

The word will bring forth fruit  
The devils have lost more food

Suddenly there's a door,  
But it's locked up,  
The demons have the keys  
You've got to fight them on your own,  
It's your turn to break free  
Now you can see the bars,  
The prison of the will and of the mind  
Now you recall me with a smile  
And I've got a mission in life

The word will bring forth fruit  
But somebody has to sow it
