

Clouds, 3 Minutes

Call me god on earth
Praise my worth
Kiss my image
Raise me so damn high
I touch the sky
Then do your damage
You're sucking me dry
Feed on me
Leave me empty

I know what you read
How they mislead
What you think of me
You're the same damn side
Yet I'm denied
My frailty
You're sucking me dry
Drain my soul
I'll lose control

Three minutes at a time to space I go to keep you happy
Three minutes at a time to space I go to keep you happy

Three minutes at a time to space I go to keep you happy
(Three minutes at a time to space I go to keep you happy)
Three minutes at a time to space I go to keep you happy
(Three minutes at a time to space I go to keep you happy)
Three minutes at a time to space I go to keep you happy
(Three minutes at a time to space I go to keep you happy)
Three minutes at a time to space I go to keep you happy
(Three minutes at a time)
