

Clouds, Loud

Baby, you tell me
Won't you?
I need to know when
Your head's at
So I can tune in

Baby, you'll wake me won't you
The door's unlocked
Call any of my names
But say it loud

Say it loud
Loud
Loud
I get a little deaf

Baby, the sun's come up
Blind me with your fingertips
Wake me with your lips
Say it loud

Loud, loud, loud
I get a little deaf
