

# Clouds, Maybe

Maybe you are the sun  
You really look like one  
From what I've read you do

Maybe you are in everyone hiding away  
What do you have to say?

Give me the voice  
Give me the choice to do what I want to  
I know you're there  
Deep in the part of me that knows everything

Heaven's in me  
Heaven's in me I know

Maybe you are the moon  
I know you're watching me  
When I go to sleep

Give me the key  
I'll try my best to weave a melody  
Here in the dark  
Give me a spark so I can find my way home

Heaven's in me  
Heaven's in me I know
