

Clouds, Never Say Forever

If you want to tell beautiful lies
Listen to me
There is a word that you can use
Try it and see
I'll be with you today
Same as yesterday

You would have heard
The other word you shouldn't use
It's never, my friend
That word is so sadly abused

I'll be with you today
Same as yesterday

Never say forever, never say forever
Never say forever, never say forever
Never say forever, never say forever
Never say forever

Make a promise here
Make a promise there
Make 'em everywhere
Break a promise here
Break a promise there
Break 'em everywhere

Never say forever, never say forever
Never say forever, never say forever
Never say forever, never say forever
Never say forever, never say forever...
