

Clouds, Red Serenade

Hurt you bad cut you deep
Wound you just to see you weep
Feel so bad I lose sleep
Want me, do you want me?
Do you need me, could you love me?

See my best, see my worst
Be my last, be my first
Come to me, be immersed
In my red serenade
I'll burst like a red tidal wave
I'm cursed with a black agony
I'm burning to know
Do you want me?
