

Clouds, Universal

Don't be afraid of the dark, don't fear what you cannot see
I'll guide you through the maze, you can trust me
Don't be scared of the unknown, I've got the answers written down
It's really very simple and so profound

There's a universal truth right here for you

Don't be afraid of dying there's a better state than this
I can take you there, it's a promise
