

Cnx Anti-Social, I Want

I want to be guardian
that takes care of your dreams
and your wake up

It is enough with your watching
in order to drive me crazy
and make me fly

You say that it is quickly
you have to think about it
but my heart
can wait anymore

I want to live
moored to your body
let me be
hooked to your love
I wanted to be
in all your memories
let me just love

I promise I will not fail
I will be faithful
and I will take care of to you

It is enough with your watching
in order to drive me crazy
and make me fly
You say you're afraid
of fall in love again
that you no longer believe in the love
but I'm gonna demonstrate you

I want to live
moored to your body
let me be
hooked to your love
I wanted to be
in all your memories
let me just love

I swear that I will make you happy until the end
If you say yes I will never make you cry
Because this feeling
it's truth is not a story

I want to live
moored to your body
let me be
hooked to your love
I wanted to be
in all your memories
let me just love
