And just
And just for second time
before I saw you in
the shadows of a streetlights
And just
And just for second time
before I saw you in
the shadows of a streetlights

you blow dust of
you blow
fucking hard if we sleep alone

..
I am alone have fun in
have a ghost in my ...
have a ghost in my ...

with no ages
stop my wages
bye bye
far away
far away
far away

I in bed, surround
with roses looking like cram bows

see..
spread in the room

I in bed, surround
with roses looking like cram bows
