

Cobra Starship, Kissed a Boy

Yo check it out i gotta plan
Heres my intention
The frat boys in the club are so lame
Lets start an altercation (get familiar)
Its just what, Im used to
Just - wanna fuck shit up
I got my, whole damn crew
Come on - whacugundo!?
I kissed a boy and they liked it
Made all the honies in da club excited
I kissed a boy just to start shit
Homeboy was not about it
I know its wrong
But i dont mind
Im gonna start shit tonight
I kissed a boy just to start shit
Bitches loved it.
Naw you dont even know my name
It doesnt matter
Dont even front you got no game
Youre just a sucka
So what now, i clowned you
And Im stealin yo girl too
She wants a, secure dude
And - thats just not you!

(Chorus)

Me and my bros thats how we roll
You never know how far well go
Ill grab some chump that i dont know
And plant one, right on him
Youre only here for our amusement
