

Cobra Starship, Wet Hot American Summer

I made a few mistakes
But I don't worry anymore
Well, you never could relate
But I don't hate you anymore
Oh no

Cuz summer's in the air now,
I gotta get my game down tight
It's alright

Yo, go and get the word out
We're gonna rock this party tonight.
It's alright.

I never meant to hurt you, girl, you know
You never felt the winter quite so cold
But when the sun comes up
I'll still be around,
Cuz it's summertime,
Get down.

G-g-g-get up, get up to get down, get down
Get up, get up to get down, get down

We're blasting Warren G
"regulators" cruisin' slow
Roll down the windows, man
We gotta let them suckers know.
Oh, oh.

The summer's in the air now,
we gotta get our moves down tight,
it's alright.
You gotta feel the beat now,
The heart is what i see
But you know how to rock all night.

I never meant to hurt you, girl, you know
You never felt the winter quite so cold
But when the sun comes up
I'll still be around,
Cuz it's summertime,
Get down.

G-g-g-get up, get up to get down, get down
Get up, get up to get down, get down, down.
You gotta, get up, get up to get down.
Cuz it's summertime, get down.

All my friends are in the city
Gonna be the best summer
We'll catch a ride out of the city
If you catch a case of summer time blues
Telephone all the pretty girls you know,
We don't need nowhere to go.
We can drive around
All night long.

I never meant to hurt you, girl, you know
You never felt the winter quite so cold
But when the sun comes up
I'll still be around,
Cuz it's summertime,
Get down.

I never meant to hurt you, girl, you know
You never felt the winter quite so cold
But when the sun comes up
I'll still be around,
Cuz it's summertime,
Get down.

G-g-g-get up, get up to get down, get down
Get up, get up to get down, get down, down.
You gotta, get up, get up
You gotta, get up, get up to get down.
