

Cochise, Before You Sleep

Close your eyes
And try to see
Magic words between your dreams
Gently flies around the moon
.. stars and sliver spoon
Fall in love with rose again
Chasing clouds
And play with rain
Golden sheep
And you my boy
Running wild with unicorns

Take my hand
And you be there
In the land
With secret lake
Shining birds and butterflies
Happy .. with rainbow, son
Sleep tonight, I sleep with you
In your dream some going to
Fathers eyes and you my boy
Running wild with unicorns

Before You Sleep
My boy
Before You Sleep

Lost in the forest of your love
Boy you'll never be alone
Come, take your way
From another beautiful day
I see you boy
No run away

Lost in the forest of your love
Boy you'll never be alone
Come, take your way
From another beautiful day
I see you boy
No run away
