

Cochise, DIRTY

And one more time we needs some pure
And one more time in hole
You drown me dirty in your bed
And dogs around the sun
Like a ghoust we live
And like a ghost we die
So don't be cruel for me today
And give me little time

Give little time.... give me something

And one more time wefly so high
And one more time we down
You drown me dirty in your bed
Before you drink a wine
Like a freak we live
And like a freak we die
So don't be cruel for me today
And give me little time

Give little time.... give me something
