

# Cock Sparrer, Watch Your Back

everybody's talking bout' revolution  
everybody's talking bout' smash the state  
sounds to me like the final solution  
right wing, left wing full of hate

(Chorus)

we don't wanna fight  
because you tell us to  
so watch your back when you attack  
cuz we might just turn on you

things get worse with every hour  
the future fades into the past  
all they want is total power  
climbing on the backs of the working class

Chorus x2

we don't wanna be part of no new religion  
we don't wanna be part of a political dream  
we just wanna get on living our lives

Chorus x2
