

# CoCo Lee, Just No Other Way (To Love Me)

## Verse 1:

Here we are  
Alone again  
In your arms again  
And it keeps on getting better  
Well I don't mean to read your mind  
'cause when I look in your eyes  
I can almost see forever  
But before you go too far  
Before I fall too fast  
Baby you should know I need love that's gonna last  
You gotta promise to be here  
Through the laughter and the tears  
Let me know that you're my everyday and everynight

## Chorus:

'cause there's just no other way to love me  
Take my heart-take my soul  
Baby never let me go  
No-there's just no other way to love me  
That's the way it should be  
If you're gonna fall in love with me  
There's just no other way to love me

## Verse 2:

Let me show you how much I care  
And baby I swear  
I'll be right there when you need me  
But I gotta know that you'll always be true  
That you're gonna see this rule  
And give your heart completely  
I wanna feel it when we kiss

Believe it when we touch  
Baby don't just say you love me  
'cause words are not enough  
I wanna see it in your eyes  
Believe it deep inside  
Gotta know you'll be here  
Everyday everynight

'cause there's just no other way to love me  
Take my heart-take my soul  
Baby never let me go  
No-there's just no other way to love me  
That's the way it should be  
If you're gonna fall in love with me  
There's just no other way to love me

## Bridge:

I will never ask for more than a gift to you  
(Gonna give my everything)  
Give my everything  
But I gotta know that your heart is true  
Everyday everynight  
For the rest of your life

'cause there's just no other way to love me  
Take my heart-take my soul  
Baby never let me go  
No-there's just no other way to love me  
That's the way it should be  
If you're gonna fall in love with me

There's just no other way to love me
