

CoCo Lee, Just No Other Way (To Love Me)

Verse 1:

Here we are
Alone again
In your arms again
And it keeps on getting better
Well I don't mean to read your mind
'cause when I look in your eyes
I can almost see forever
But before you go too far
Before I fall too fast
Baby you should know I need love that's gonna last
You gotta promise to be here
Through the laughter and the tears
Let me know that you're my everyday and everynight

Chorus:

'cause there's just no other way to love me
Take my heart-take my soul
Baby never let me go
No-there's just no other way to love me
That's the way it should be
If you're gonna fall in love with me
There's just no other way to love me

Verse 2:

Let me show you how much I care
And baby I swear
I'll be right there when you need me
But I gotta know that you'll always be true
That you're gonna see this rule
And give your heart completely
I wanna feel it when we kiss

Believe it when we touch
Baby don't just say you love me
'cause words are not enough
I wanna see it in your eyes
Believe it deep inside
Gotta know you'll be here
Everyday everynight

'cause there's just no other way to love me
Take my heart-take my soul
Baby never let me go
No-there's just no other way to love me
That's the way it should be
If you're gonna fall in love with me
There's just no other way to love me

Bridge:

I will never ask for more than a gift to you
(Gonna give my everything)
Give my everything
But I gotta know that your heart is true
Everyday everynight
For the rest of your life

'cause there's just no other way to love me
Take my heart-take my soul
Baby never let me go
No-there's just no other way to love me
That's the way it should be
If you're gonna fall in love with me

There's just no other way to love me
