Cocteau Twins, Golden-Vein

Shunning punched All of song Will you spare Last night, till dawn Your eyes have mine At last I've got lyric

The rest into(in two?)
A mood of dust
Myself into
With eyes for me
My safe love
Bought

Showing emotions New rules Reaching out Realing with it Our mountain roses Oh in their eyes and then

Little flowers in the dirt And gladness will fill me in your hand You hold and surround me in gold Myself into It finds a thread
