

# Code Red, Celery

Every time I look at you I feel my life's complete  
Every time I'm captured by your smile  
You are everything I've wanted  
This is just the way I want my life to be  
Oh yeah

Coming from two different worlds  
I like cars and you like pearls  
I like meat and you like celery  
It doesn't matter anyway  
If I'm night and you are day  
We'll be together  
We'll meet each other, half way

I'm gonna miss you even though you haven't even gone  
Gonna miss you even though I'm lookin at you  
I'm gonna miss you can't you see  
That a second is a lifetime without you by my side

Every night I dream of you  
A dream that is so real  
I don't want the night to have an end  
It's so wonderful to know that  
When I wake up you'll be smiling up at me  
Oh yeah

Though we feel a different beat  
You like cold and I like heat  
We're together and it works out fine  
All we want is happiness  
No more pain and no more stress  
We'll be together we'll meet each other halfway

I'm gonna miss you even though you haven't even gone  
Gonna miss you even though  
I'm lookin at you  
I'm gonna miss you can't you see  
That a second is a lifetime without you by my side

Coming from two different worlds  
I like cars and you like pearls  
I like meat and you like celery  
It doesn't matter anyway if I'm night and you are day  
We'll be together  
We'll meet each other, half way

I'm gonna miss you even though you haven't even gone  
Gonna miss you even though I'm lookin at you  
I'm gonna miss you can't you see  
That a second is a lifetime without you by my side
