

Code Red, Living Without You

After all we've been through
Here we stand with love undeniably true
All our doubters look on
Wonderin' how we have done
What we've done for so long
You know I could not be

Chorus

Living without you, I can't even think about it
Breathing without you, I'm in love no doubt
Without you where would I be?
You make it all complete
And tell me what would I do?
I don't wanna breathe without you

When we think it's as one
When you breathe then I breathe
'cos our bond is so strong
And our laughter it sustains me
Makes me wanna live all our moments again
No way that I could be

Chorus

Though they said it's not just a phase
Still we're together and they're amazed
Living as one in harmony A perfect love don't you agree

Chorus x2
