## Code Red, Part Of You

(graham/cohen)

Roger:

I've been alone - sat by the phone A time in my life - I'd prefer to forget it if I could Those memories are leaving me Now all my days are a dream and the dream is for real

Chorus:

I wanna be part of you Share my soul with you My life began the day you walked in the door I wanna be part of you Cos you're part of me A love to last I wanna be part of you

Lee:

I used to cry not knowing why A time in my life - I'd prefer to forget it if I could I lived in hope trying to cope Now all my days are a dream and the dream is for real Repeat chorus

Phil:

And when I look in your eyes I'm a thousand feet high And there's no reason why With a love so strong We can't carry on for all time Repeat chorus
