

# Coheed And Cambria, Always & Never

If beauty sits the child's kiss  
Of laughter I amend  
Can you catch her if she runs?

With this I would share with you  
All of this count to no end

Behind your sealed eyes you miss  
All that I've done for you  
Will you catch me when I run?

If timing play evident  
What will you say when you're late?

Stay with me and fall asleep  
Pray to God for no bad dreams

Stay with me and fall asleep  
Pray to God for no bad dreams

Here... I'm still waiting here, my dear  
For one kiss from you  
So here... I'm still waiting here, my dear  
To kill all of you  
To kill all of you
