

Colbie Caillat, Wide Open

I kinda like where this is going
Even if it's not goin' anywhere
Feelin' like the breeze flowing
Sometimes you gotta throw it all up in the air
I kinda like the not knowing
I kinda like it being out of my hands
No, it's not that I don't care
But I just don't care

And I'm wide open
I'm miles from yesterday
The sky opened
And the clouds all rolled away
Like the ocean
I'm learning how to stay
Wide open

We can fall in love together
Even if we fade out it's alright
I know nothing lasts forever

But right now you're by my side
Seasons always gonna change
And I've changed
Now I'm goin' my way
I'm goin' my way

I'm wide open
I'm miles from yesterday
The sky opened
And the clouds all rolled away
Like the ocean
I'm learning how to stay
Wide open

We can fall in love together
I know nothing lasts forever
Seasons always gonna change
And I'll change
Just goin' my way, my way

I'm wide open
I'm miles from yesterday
The sky opened
And the clouds all rolled away
Like the ocean
I'm learning how to stay
Wide open
